# Homeland Security Enablement through real-time device intelligence

## Conforming to the **most demanding** homeland security requirements

Mobile devices have become an integral part of our daily lives, offering a multitude of functions and capabilities. As a result, the amount of data generated by these devices has skyrocketed. Safer, our innovative solution, harnesses the power of this data and presents it on a visually stunning, detailed map. This not only helps mobile service providers stay compliant with security regulations but also allows them to do so in a cost-effective manner.

### Key Benefits

- ▣▣ Meet Homeland Security Requirements
- ▣▣ Support Law Enforcement Authorities
- ▣▣ Reduce Homeland Security Adherence Costs
- ▣▣ Save Costs by Automating Service Activation

### Features

- ▣▣ Collect and Store Data
- ▣▣ Search and Locate
- ▣▣ View Subscribers and Devices
- ▣▣ Collaborative and Secure Access
- ▣▣ Trigger Real-time Alert Notifications

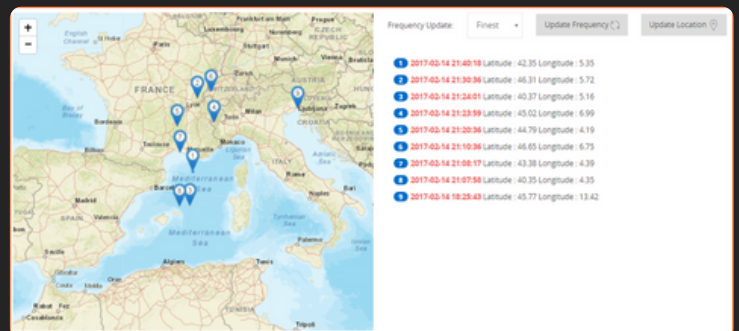

# How does it work?

Our flexible solution caters to all the diverse needs of service providers and can be accessed via the Cloud, On-premises, or through a Virtualized Application. With Safer, mobile service providers can unlock the full potential of their data and ensure a secure and seamless experience for their users.

## Location History on a Map

- See on the map the location history over a long period.
- Update location frequency by MSISDN
- Get Real-time subscriber location

The screenshot shows the Alerts Management interface with the following fields:

- Alert Type:** Subscriber
- Event:**
  - ☐ On triplet change
  - ☐ On location change
- Name:** (empty field)
- Alert criteria:** value1: value2
- Recipients:**
  - Administrator: admin
  - Location Agent: msurkani
  - Tracker Agent: hmapi

## Alert Management

- Define & Push Alerts by SMS & Email on triplet change, location change to any agent (regulator, Police authority, MNO)
- Define & Push Alerts by SMS & Email on location update frequency & first consultation to any agent (regulator, Police authority, MNO).
